

Styling 101

Black Round Neck Tee

Tie it up!

The Front Knot

A knot in the front to tie up your T shirt is one of the best ways to spruce it up. You can show a little or a lot of skin as per your mood and keep it tight or loose again as per your mood.

A small scrunchie is great to set the knot in place or just tie a regular looped knot.

The most important thing is to have fun with it!

Skinny jeans for days

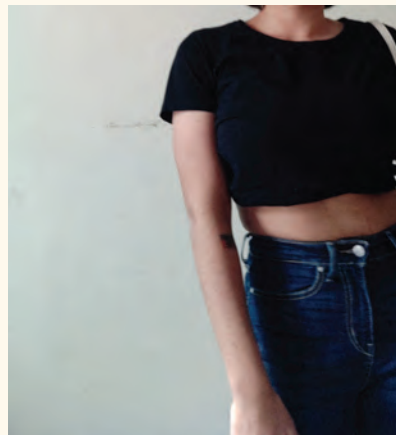

The Perfect Bottoms...

Skinny jeans are a classic that never go out of fashion. What better way to pair a classic T shirt other than pairing it with another classic, The skinny blue.

This outfit will make you feel super powerful and confident ladies!

Tuck It In

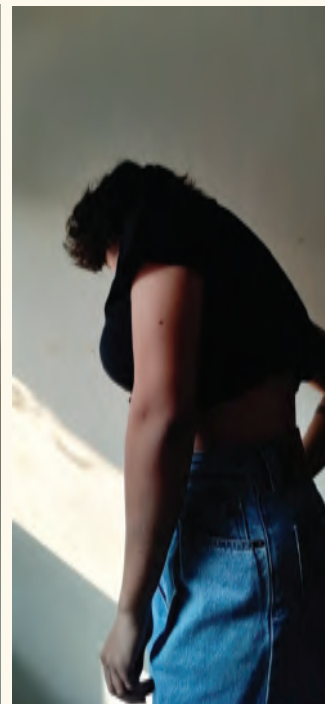

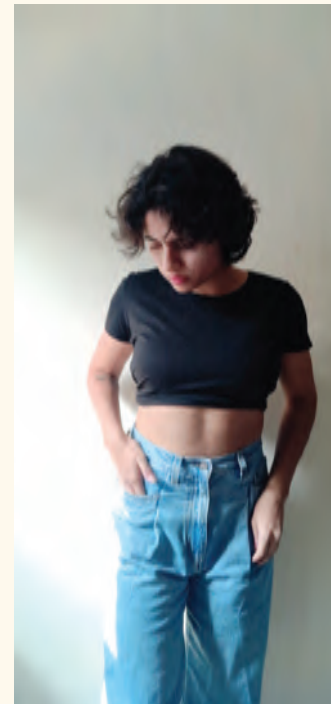

Tucking the lower hem of your T shirt into your bra will give it a very uber chic look and feel. It will elevate your T shirt from classic to easy breezy. This is great for summers as it is flowy and goes really well with shorts and skirts.

To tuck you T shirt just gather the lower hem and neatly place it under the elastic band of your bra. Gently puff out the rest of you T shirt for a flowy look.

Pair with a solid bag and gold hoops for the perfect outfit for a date out with your girlfriends.

Knot at the Back

Knotting your T shirt at the back instead of the front part is a very unique way of doing the same and great to flaunt those beautiful curves.

The knot at the back can be securely tucked into your bra to ensure that it does not show. Pair with straight jeans for the perfect look.

The perfect Parisian aesthetic demands one to wear a solid colour T shirt with a beautiful, feminine Tie up skirt. A tie up skirt in a beautiful fresh colour like pink, yellow or any pastel goes really well with a black T shirt.

Tucking this T shirt into your skirt will accentuate your curves and give that hourglass silhouette. Pairing the two with white sneakers, Chelsea boots or Brown gladiators will give you the perfect outfit which is both pretty and comfortable

The Parisian Chic

The Straight Leg

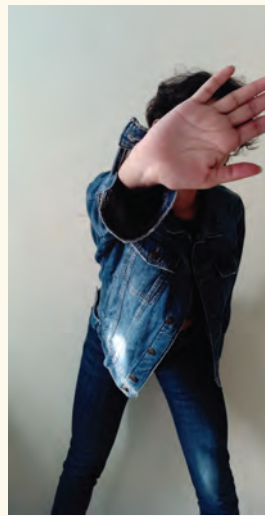

Straight leg jeans are my personal favourite as they are extremely comfortable, fashionable and suit almost all body types. A pair of high waist straight leg jeans is all you need to give you that 2/3 look and paired with a basic tied up black T shirt is chef's kiss.

Pair this outfit with bold pencil heels and a shoulder bag to add a pop of colour and take this outfit to another level. This is comfortable, beautiful and one of my favourite combinations.

Layers of Goodness....

D for Double Denim

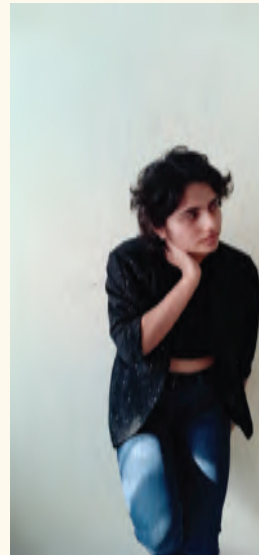

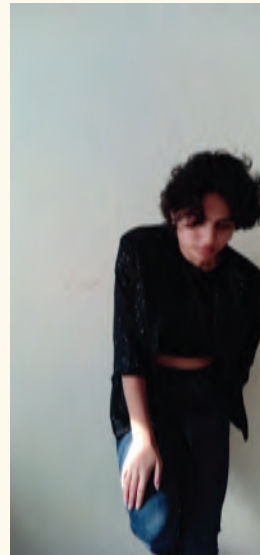

I truly believe that one of the best inventions of mankind is Denim. Denim has the power to take your outfit from 1 to a 100.

With there is only one rule which is the more the merrier. Double Denim is a trend which will never go out of fashion. However, it can get a little heavy on the eyes at times. Hence the perfect way to style double denim is with a black T shirt.

A black T shirt enhances the look of the double denim without losing its own beauty. Hence, this style is a must try.

Glittery shrugs

Glitter adds that 'oomph' factor to any basic garment. This basic black T shirt paired with a shimmery glitter shrug will be the life of the party in your cupboard.

Instead of a glittery shrug one can also try this outfit with glittery shoes or an embellished necklace too.

Pair with white sneakers or with espadrille wedges to get a beautiful feminine look with comfort too.

The Bomber Jacket

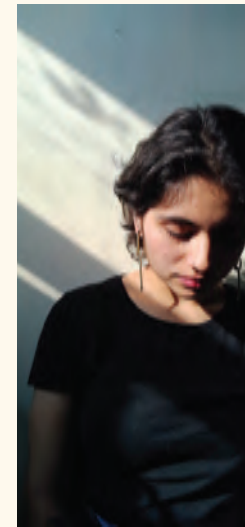

Bomber jackets are so comfortable and look so cool. I have seen some great designs in them with very interesting elements like patchwork, applique etc.

A jacket like such paired with this black T shirt will look very nice and a pair os skinny jeans will complete the look.

My suggestion is to complete this look with a pair of black glossy chelsea boots.

Accessorize your way to the top...

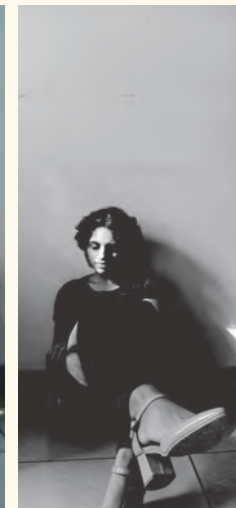

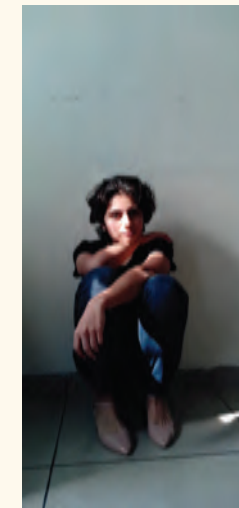

Statement Gold Earrings

Statement Gold Earrings are a wardrobe staple as they match with everything just like our humble black T shirt.

The earrings don't need to be very fancy, even a pair of simple gold hoops look feminine and very beautiful. Such earring are the perfect jewelery with this black T shirt. Leave your hair open in a messy carefree look to look effortlessly beautiful and stunning.

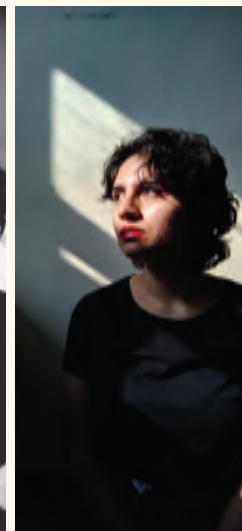

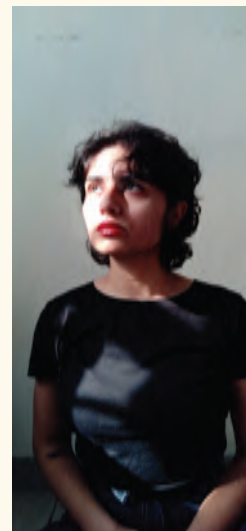

Heels all the way

Who said heels look good just with gowns and dresses, they look equally good with jeans and T shirts too.

A pair of pastel block heels will look great with this T shirt and a pair of simple jeans. These block heels are comfortable and fashionable at the same time.

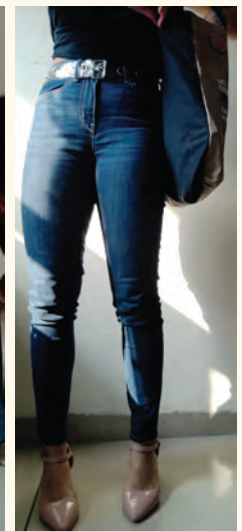

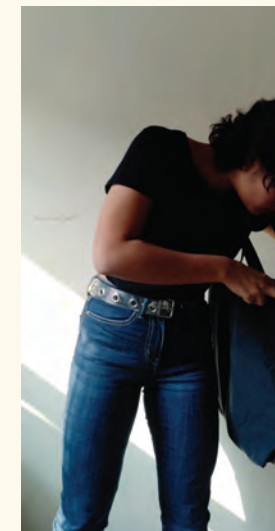

The Classic Red Lip

Red lips look so beautiful and when paired with this basic black T shirt is dream come true. The bold red color complements the simple silhouette of the black T shirt.

Funky and unique belts add a pop of color and charm to the otherwise simple nature of this outfit.

Funky Belts

Pretty Purse

Shoulder bags are really in right now. Rather than going for a fancy one with chains and buttons, a simple white or cream one will look very beautiful with this black T shirt and a pair of jeans.

Pairing this with heels is the cherry on top.

Sunglasses

I love a pair of Aviator sunglasses with any outfit, but they look especially good with this basic black T shirt.

This takes this outfit to a whole new level and looks so cool and smart.

Pair this combination with white sneakers.
